Eagle Scout candidates should know who is involved, but contact information may be more important to unit leaders and others in case they want to talk to each other. While it is recognized that not all the information will be needed for every project, Scouts are expected to provide as much as reasonably possible. Approval representatives must understand, however, that doing so is not part of the service project requirement.

Project Description and Benefit

Briefly describe your project

Include images on an additional document.

Tell how your project will be helpful to the beneficiary. Why is it needed?

When do you plan to begin carrying out your project?

When do you think your project will be completed?

- How many people
- Where will you recruit them
 - Must have 2 registered and YPT trained adults present at all times

- Materials
 - Stuff for the project
- Supplies
 - Stuff for the people
 - *Food, safety equipment*
 - Stuff for the area
 - *Tarps, masking tape*

Giving Leadership

Approximately how many people will be needed to help on your project?

Where will you recruit them (unit members, friends, neighbors, family, others)?

What do you think will be most difficult about leading them?

Materials

Materials are things that become part of the finished project, such as lumber, nails and paint.

What types of materials, if any, will you need? You do not need a detailed list or exact quantities, but you must show you have a reasonable idea of what is required. For example, for lumber, use basic dimensions such as 2x4 or 4x4.

Supplies

Supplies are things you use up, such as food and refreshments, gasoline, masking tape, tarps, safety supplies and garbage bags.

What types of supplies, if any, will you need? You do not need a detailed list or exact quantities, but you must show you have a reasonable idea of what is required.

- Tools
- Other Need
 - Transportation, parking, bathrooms
- Permits and Permissions

Tools

Include tools, and also equipment, that will be borrowed, rented, or purchased.

What tools or equipment, if any, will you need? You do not need a detailed list, but you must show you have a reasonable idea of what is required.

Other Needs

Items that don't fit the above categories; for example, parking or postage, or services such as printing or pouring concrete, etc..

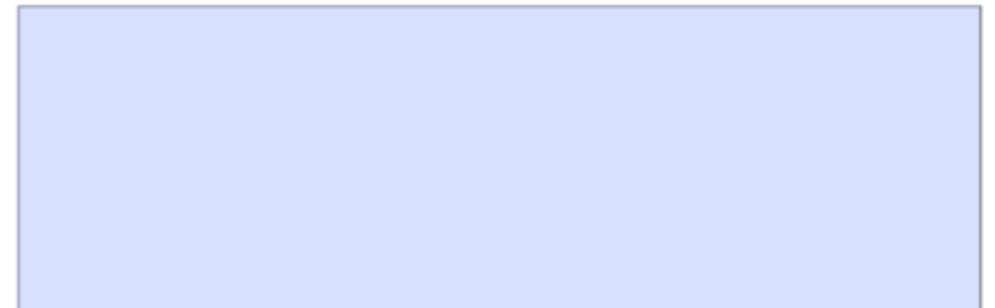

What other needs do you think you might encounter?

Permits and Permissions

Note that property owners should obtain and pay for permits.

Will permissions or permits (such as building permits) be required for your project? Who will obtain them? How long will it take?

- Preliminary Cost
- Project Phases
- Logistics
 - Movement of help, tools, supplies

Preliminary Cost Estimate

You do not need exact costs yet. Reviewers will just want to see if you can reasonably expect to raise enough money to cover an initial estimate of expenses. Include the value of donated materials, supplies, tools, and other items. It is not necessary to include the value of tools or other items that will be loaned at no cost. Note that if your project requires a fundraising application, you do not need to submit it with your proposal.

Enter your estimated expenses below
(include sales tax if applicable)

Materials:

Supplies:

Tools:

Other:

Total Costs:

Fundraising: Explain how you will raise the money to pay for the total costs. If you intend to seek donations of actual materials, supplies, etc., then explain how you plan to do that, too.

Project Phases

Think of your project in terms of phases, and list what they might be. The first may be to prepare your project plan. Other phases might include fundraising, preparation, execution and reporting. You may have as many phases as you want, but it is not necessary to become overly complicated; brief, one line descriptions are sufficient. If you have more than 10 phases, attach a separate page with your continued phase list.

Eagle Scout requirement 5 says you must "plan" and "develop" your service project. Though this project plan is a tool for your use, and is not approved or signed, it is important in helping to show you have done the required planning and development. You should take this project plan with you to your Eagle Scout board of review. Note that you are not required to provide more details than are necessary for the accomplishment of your project.

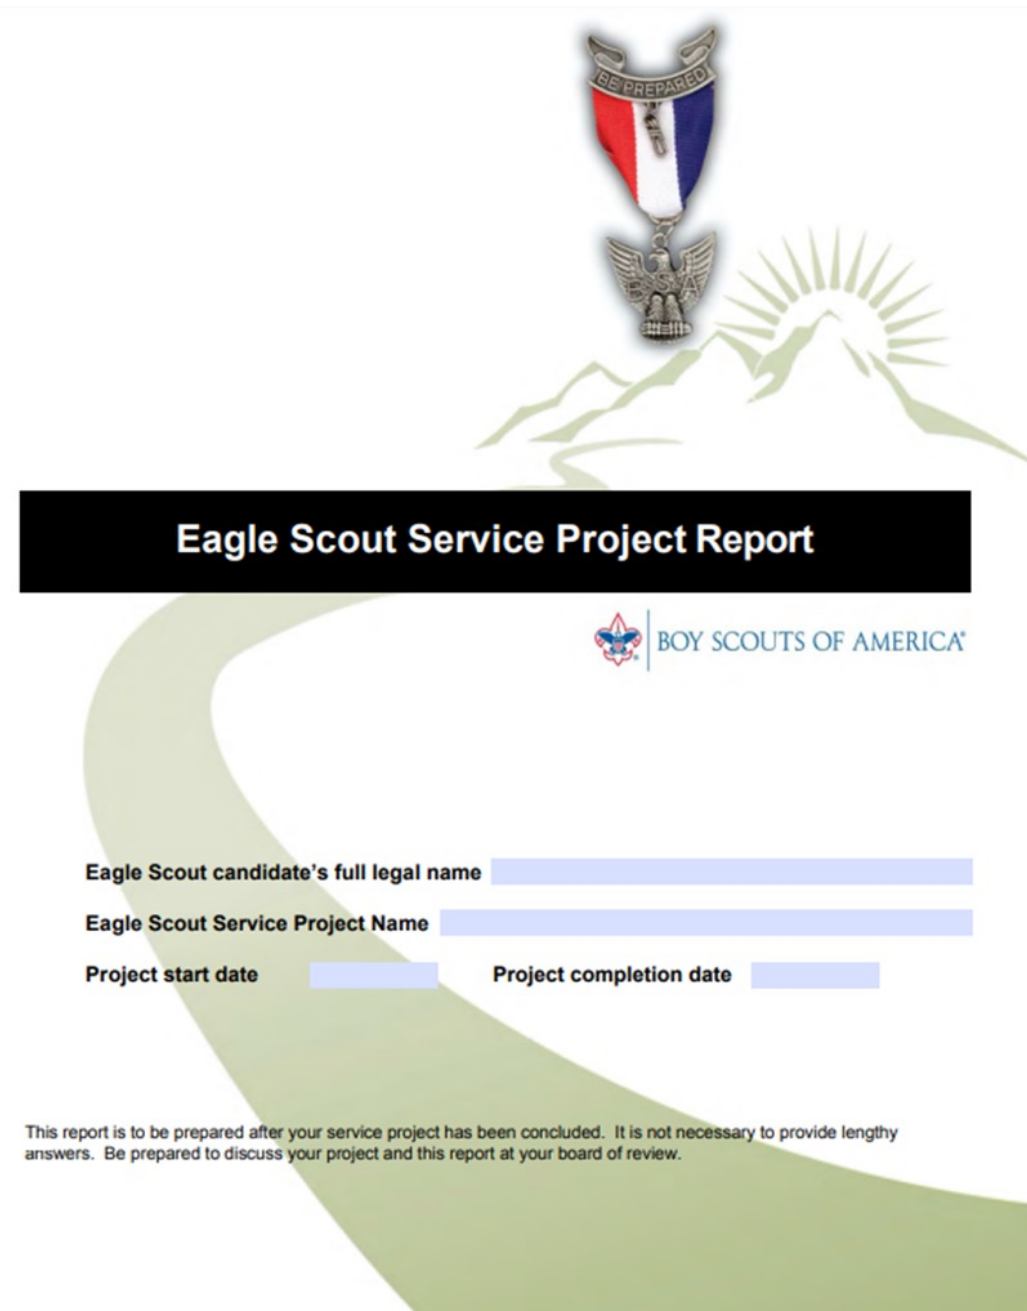

A Scout who is prepared will complete the project plan, and then review it with the designated project coach before carrying out the project. The council or district representative who approved your project may have agreed to serve as your project coach, or someone else may be designated to take this important role. A project coach's involvement and review of your project plan is optional, but it can help you avoid many problems or mistakes. This can also improve your chances of passing the Eagle Scout board of review.

You should also show your project plan to your beneficiary prior to carrying out the project. This will help ensure your plans agree with the beneficiary's expectations. Remember, the project beneficiary has the authority to require and approve a project plan. Be sure to read "Navigating the Eagle Scout Service Project" at the end of this workbook.

Eagle Scout Service Project Report

The Project Report

- This is the section where the scout makes tells what happened during the implementation of their project
- This should be filled out **AFTER** the completion of the project
 - Includes page 26-29

Below the banner is the Boy Scouts of America logo, which includes a fleur-de-lis and the text "BOY SCOUTS OF AMERICA". The form has several input fields: "Eagle Scout candidate's full legal name" with a long blue bar, "Eagle Scout Service Project Name" with a long blue bar, "Project start date" with a short blue bar, and "Project completion date" with a short blue bar. At the bottom, there is a small paragraph of text: "This report is to be prepared after your service project has been concluded. It is not necessary to provide lengthy answers. Project Report Page C

The Project – Addressing Common Misconceptions

- “Give leadership to others...” – “others” means at least 2 people besides the Scout (GTA 9.0.2.4)
- Councils, districts, and units shall not establish requirements for the number of people led, or their makeup, or for time worked on a project. (GTA 9.0.2.4)
- There is no requirement a project must have lasting value. (GTA 9.0.2.12)

The Project – **Addressing Common Misconceptions**

- **Note that project plans for an Eagle Scout service project are between the Scout and the beneficiary.** (GTA 9.0.2.9)
- **Any plans completed after the project proposal has been approved by the council or district are between the Scout and the beneficiary.** (GTA 9.0.2.12)

The Project – Addressing Common Misconceptions

- **The Scout is not responsible for any maintenance of a project once it is completed.** (Project workbook)
- **Every project must be evaluated, case-by-case, on its merits, and on lessons that will advance the candidate's growth.** (GTA 9.0.2.4)

The Project – Addressing Common Misconceptions

- Routine labor is not normally considered appropriate..... But the real test has to do with scale and impact. If “routine labor” is conducted on so large a scale it requires planning, development, and leadership, it may have sufficient impact. *(GTA 9.0.2.11)*

QUESTIONS ON THIS?

The Project –

The project is considered COMPLETED

- When beneficiary has stated that project has been done to their satisfaction
- Paperwork has been completed
- ALL signatures are obtained

The Project –

When things don't go as planned **AFTER** completion

The unit leader or Beneficiary may choose to not approve a project after completion

- This may happen if a scout's modifications were so significant that the project no longer meets the standards for requirement 5, either because
 - *the extent of service was lessened*
 - *the impact of the project was lessened*
- If this happens a scout has 2 choices
 - *Ask to do more work*
 - *Start over with a new project*

The Project –

When things don't go as planned AFTER completion

What to do if the candidate believes the project, as completed, meets the intent of requirement 5.

- The scout may send it along with Eagle application to final Board of Review

The Project – What makes a **GOOD** project – Building Stuff

The Project – What makes a *GOOD* project – **Building Stuff**

The Project – What makes a GOOD project – Collecting Stuff

- Bag and supplies for foster kids
- Activity packs for Veterans
- Narcan distribution Drive
- Bone Marrow Drive
- Eyeglasses collection

Eagle Scout candidate Chandler Fescenmyer (second from left) along with Elizabeth Sawyer (far left), a prevention specialist at Armstrong Indiana Clarion Drug and Alcohol Commission; Keanna Fye (third from left) another prevention specialist at AICDAC; and Jaclyn Dolby (far right) of the Clarion Drug Free Coalition project partnered and coordinated the following events: the drug trends presentation, Narcan distribution drive thru, and medication take back at the Horseshief festival in Knox. Due to his efforts, Fescenmyer earned his Eagle Scout rank from the Scouts BSA (formerly Boy Scouts of America).
