Maximum number of participants: 25

Prerequisites: Prerequisites: 2, 3, 8c, 8d, & 9 should be completed prior to camp (bring documentation of your total camping experiences in the form of reports of each trip; have the reports signed by your Scoutmaster)

First Aid

First aid - caring for injured or ill persons until they can receive professional medical care - is an important skill for every Scout. Fish and Wildlife Management

Wildlife management is the science and art of managing the wildlife - both animals and fish - with which we share our planet. Maintaining the proper balance and the dynamics that go with it requires humankind's attention. We use this stewardship tool to help minimize or eradicate the possibility of extinction of any given species. We want our descendants to have the opportunity to experience the same animal diversity that we now enjoy.

Maximum number of participants: 20

Prerequisites: Prerequisites: 5 & 7 (bring materials to camp)

Days: Mo Tu We Th Fr

LSC37 9-10:30 AM

Fishing/Fly Fishing

Fishing--In Scouting for Boys, Baden-Powell offers this advice: "Every Scout ought to be able to fish in order to get food for himself. A tenderfoot [beginner] who starved on the bank of a river full of fish would look very silly, yet it might happen to one who had never learned to catch fish."

Fly Fishing--Fly-fishing is a specialized form of fishing that combines skill and artistry. Because it is so rich with tradition, it is a passion for millions of people. The beauty of the water, the solitude, and the skills that the sport requires have made fly-fishing very important in the lives of many notable people.

Maximum number of participants: 20

Prerequisites: Fishing--Recommended advance work: Practice knots and study the Outdoor Code and Leave No Trace prior to camp; requirement 7 involves knowledge of state and local regulations

Materials needed: Fishing rod & reel, line, bait or lures as needed for requirement 9

Maximum number of participants: 20
